

I have heard about the possible rule changes in radio broadcasting you have put up for public opinion. I would like to tell you that K-LOVE Christian radio station has made a wonderful difference in my life and my family's life. I was saved two years ago and since then I listen to nothing but K-LOVE. All other secular organizations have a right to put their beliefs anywhere they want. I see no reason to start attacking the Christian organizations in America any more than they have already been attacked. Why can't Christian radio stations be allowed to operate as they see fit. They are not hurting anyone. They do not broadcast lewd, negative, biased or damaging programming. Radio stations should have the right to run with as many or as few people as they want as long as programming goes on well. There is no reason for the FCC or Congress to step in and say "you must have X amount of people staffing you stations". Why don't all of you at the FCC and Congress read over the constitution, I mean read it over and listen to what it ACTUALLY says, not what you want to interpret. This country was founded on the Christian belief and regardless of what you have done to destroy that, we as Americans still have a right to Free Speech. Yes also us Christians. Why don't you spend more time trying to get solid, positive, beliefs instilled in American families and less time trying to silence the God fearing Christian belief. You might just find that America is a better place to live if we had Christian morals back where people could hear and see them every day.
